The Highlands County Sheriff’s Office is pleased to present our Strategic Plan for 2013-2016. The plan continues to provide an overview of the service requests by our community which require future forecast of professionalism needs to include equipment and technology. We are driven by the Vision that you, our citizens defined. “A safer Highlands County where citizens and law enforcement are joined together; the rights of all persons are respected, and community values are reflected”. It further provides a look into the future where goals, strategies and objectives for the next three years are outlined and accounted for to reaffirm the Mission “that we are committed to protecting life, property, and individual rights while maintaining peace and order.”

As your Sheriff, I am keenly aware that your trust in our ability to accomplish the level of protection that you expect, requires that we are always ready to initiate efficient and cost allowable changes. With this strategic plan, we manage our limited resources and look to new alternatives to meet today’s justice challenges.

We will continue to provide our community with innovative solutions and best practices in the delivery of law enforcement services. We will build on our past accomplishments while providing outstanding service to our community now and in the future.

Over the next three years there will be important succession planning expected in areas where there will be retiring executive and command staff, additionally, aging out equipment and technology will incrementally have to be updated. Members must and will look for ways in which we can be more efficient and resourceful. The plan provides the opportunity to review everything we do and assure that all of our operations fit together and are consistent with our overall vision and mission. As a result, this strategic plan directs us to consolidate, reduce, improve, add or eliminate operations which best serve the needs of the community.

I assure you that your Sheriff’s Office will stay committed to our Core Values of Integrity, Quality Service, and Professionalism; where principles are important, ethical behavior is the norm, and the organization and its’ members are held professionally accountable to the citizens we serve.

Susan Benton
Sheriff of Highlands County
Developing an Operational and Strategic Plan

Eight years ago, the Highlands County Sheriff’s Office members, together with many of our residents, created the first strategic plan for the Office of Sheriff. Through this process, the community and our members shared ideas, opinions, expectations, and identified issues related to the delivery of public safety services. With a common vision, we outlined the mission of our Office, defined our fundamental values, and established workable goals with very specific objectives to build an operational business model that aligns with budgetary constraints. Following the first initial one year plan, citizens and members reviewed plan accomplishments, current issues, and identified future needs which resulted in the continuous three year plan. Throughout the year members are meeting quarterly to report and record the completion of the various objectives by providing detailed accountability for their assigned responsibilities.

The quarterly accountability sessions are conducted in order to report and record accomplishments, seek guidance in problem areas, and resolve or realign objectives as necessary. We have continually maintained a high percentage of objective accomplishments even during difficult financial times due to the initiative and creativity of our members. We stay committed to following the plan, and hold ourselves accountable to accomplish the vast majority of our identified objectives as resources allow.

The Strategic Plan is a dynamic document that is in a constant state of review and updating. As each objective is achieved, a new challenge will become apparent and that challenge will become a part of the plan.

Due to the accomplishments through the plan, many of the objectives have become operational activity and are an annual or ongoing objective within the plan. These objectives are now moving in the plan to a maintenance section. Additional objectives are identified for the future years to align internal priorities with the expectations of the community for law enforcement services.

#### Grand Total Complete for Goals 1 - 5: (Fiscal Year 2011-2012)
- # of Objectives: 91
- Completed: 84
- Partially Complete: 3
- Not Completed: 4
- Status: 97%

The members of the Highlands County Sheriff's Office with responsibilities for carrying out the implementation of the Strategic Plan continually receive high marks of accomplishment. Objectives not completed were due primarily to fiscal constraints or a change in the objective. In a couple of cases the objective was based on grant applications for funds that were not received.
PART ONE

STRATEGIC DIRECTION
Planning Process

Prioritization:
During the 2012-2013 accountability sessions, command staff called for input on any objectives which might need to be added or revised for incorporation into the 2013-2016 plan. Command staff then prioritized the new or revised objectives, identified funding requirements, and funding sources.

Adequate staffing continues to be a priority in the Sheriff’s strategic plan as the county continues its steady rate of growth within the unincorporated area. Within the State of Florida, the average number of sworn law enforcement officers for every 1,000 residents is 1.76 deputies.

In 2004, Highlands County’s ratio was 1.1 sworn deputies per 1,000 residents. Through a staffing analysis and fiscal plan, the number of sworn deputies per 1,000 residents has increased to ratios of 1.36/1,000 in 2006, and 1.5/1,000 sworn deputies in 2009. In 2013, the ratio for law enforcement deputies including the population of Avon Park is 1.5/1,000. This is a result of continual organizational restructuring and the addition of sworn deputies throughout the past four years as set out in the staffing analysis. The current three year plan contains initiatives to maintain the current level of sworn deputies per residents by utilizing an “all hands on deck” approach. This approach would include all detention deputies who are dually sworn and the court deputies. Adding those in an emergency situation would bring our ratio to 1.8 deputies to 1,000 residents including the City of Avon Park.

Plan Accountability:
The agency command and executive staff are committed to the successful accomplishment of the three year plan and will continue to work together as a team to assign responsibility and provide resources to assure a positive outcome of all objectives.

Progress towards the accomplishment of the plan objectives is reviewed quarterly using an internal accountability chart which measures or notes accomplishments, percent complete, current status, extensions of time if necessary, and/or any issues that need to be addressed. Each objective requires hard copy back-up documentation of completion and/or progress.

Annual Review:
The plan is reviewed and updated on an annual basis, prior to the county’s annual budget review cycle. The agency’s objectives are assessed and reprioritized if necessary, based on operating expenses, service indicators, crime statistics, or special initiatives. A revised three year plan is published each year after the annual review as a guiding tool for the development of the annual operating budget, the Capital Financial Strategy, and equipment and personnel needs.

PART THREE

THE MAINTENANCE
THE MAINTENANCE

Members of the Highlands County Sheriff’s Office are extremely dedicated to and adhere to the direction provided in the Strategic Plan. By holding ourselves accountable to accomplish our objectives throughout the last eight years, working within the strategic framework, we realize that a large majority of the identified objectives have been completed and became institutionalized in the way we do business. With that in mind, in the following pages you will see the objectives that have been accomplished and are now being maintained by an ongoing process or conducted annually. These objectives will continue to be tracked under the original goal and strategy in order to realize the alignment of responsibility and accountability for accomplishment. Moving in this direction strengthens the value of the strategic planning process and re-emphasizes the significance of what an organization can accomplish when there is a focused vision, where every member realizes that the vision is in fact, their job and each member counts in the successful achievement of the plan.
